نبني مستقبل عُمان
We Build the Future of Oman

نراهن على طاقاتنا الوطنية

AL Rajhi Group of companies is a registered Limited Liability company with corporate office located in Ghala Industrial Area, Muscat, Sultanate of Oman. The company is known in the market for more than three decades. AL Rajhi Group has been pioneer and well recognized company within the locality as one of the leading suppliers of Quality Readymix Concrete, manufacturing and supplying of unique types of Concrete Blocks & interlocks, Kerbstone and Road Safety Barriers products; as well as producing of Natural and Crushed Aggregates, Rocks and Sands.

AL RAJHI CONCRETE PRODUCTS LLC

AL RAJHI CONCRETE PRODUCT LLC (BLOCK FACTORY) started its operation in the year 2008 for manufacturing various types of concrete blocks, insulated blocks, interlocks, and kerbstones by using German made concrete batching plant. This factory garnered a good reputation and is well known all over Oman because of quality raw materials being used for manufacturing blocks at all times.

AL RAJHI BLOCK FACTORY can produce good blocks through the constant monitoring of raw materials quality, strict control on the production process, and finished product testing at each batch.

AL RAJHI GROUP MANAGING DIRECTORS has taken a bold step to introduce high capacity fully computerized Rekers and Oman block-making plant in the Sultanate of Oman to cope with the growing demand for quality concrete blocks. This plant is imported from Rekers Germany and Besser Germany. Both companies are known worldwide for manufacturing block plants for producing superior concrete products.

The AL RAJHI CONCRETE PRODUCTS LLC (BLOCK FACTORY) is located at Jifnain near Rusayl Industrial Area, started the operation in January 2008 with an initial capacity of producing 80,000 blocks per day. The second plant was opened and introduced in 2013 with the same capacity as the first plant. Our new block factory is ready to tackle the booming market in the Sultanate of Oman. Innovation has been the hallmark of AL RAJHI GROUP which has resulted in the introduction of high capacity and branded block-making plant in Oman.

AL RAJHI CRUSHER LLC

AL RAJHI CRUSHER LLC is established in 1997 and started with 2 crushers; one in Batinah and the other one in Capital. The main purpose for establishing at two different places is to cater/ accommodate the huge demands of Batinah and the Capital Region. Now, we have six crushers in different locations (2 in Jifnain; 2 in Barka; and 2 in Suwaiq). Our strength is to be achieved from our commitments with customers.

AL RAJHI CRUSHER LLC is known as high quality with highly skilled and professionally managed and a well-established company producing different types of rock- based crusher materials.

AL RAJHI CRUSHER has the facility and capability to produce different sizes of aggregates, rock armor as per specific customer's specifications and quantity requirements and these are produced and complies with international standards BS & ASTM and Oman standard.

We are committed to providing our clients with the highest possible service available. As an integral part of this process, we have developed a series of procedures and processes which show our company's quality.

We are committed to health, safety, and environmental protection. Health and safety for our employees are our highest priority.

We have our well-established laboratory with a skilled technician to check the quality of the materials on daily basis.

AL RAJHI READYMIX LLC

AL RAJHI READY MIX LLC is a member of AL RAJHI GROUP OF COMPANIES, established in 2004. We were operating in the name of AL RAJHI INTERNATIONAL LLC and later changed to AL RAJHI READYMIX LLC (ARR) in 2008. ARR has always been popularly known for its high-quality concrete, customer service with perfection & technical expertise. In the past few years, Al Rajhi Ready Mix has grown to be one of the “Major League” concrete suppliers in the Sultanate of Oman.

The main plants are located in the industrial area of Ghala and Jifnain. It has a huge production capacity of 500 cubic meters per hour. The plants are fully computerized and are the most sophisticated of their kind in Oman & the Gulf. We have highly experienced & qualified technical personnel who blend with the latest development of concrete technology in production and quality control. Moreover, our computer printouts are given to customers as our Delivery Notes, where all ingredients batched weights are clearly indicated.

Our well-equipped laboratory, staffed by highly qualified technical personnel has the capacity to undertake all routine and durability testing- all to International Standards.
